

Appendix to the financial statements for the period 1 January – 31 December 2022

Remuneration

This appendix contains information about remuneration of the Executive Board and Board of Directors of Polaris Management A/S, cf. the Danish Alternative Investment Fund Managers Act, which was previously part of the annual report.

The information is provided as of the financial year 2022 in a separate report, which is a consequence of the fact that the Danish Parliament in December 2022 adopted a proposal to amend the Financial Business Act, in which it was proposed, among other things, to change the requirement to publish directors' individual salary information in the annual report.

The change means that management's individual salary information in the future will not have to be disclosed in the annual report for reasons of data protection rules. However, it is still a requirement that the information is made publicly available.

For the sake of data protection rules, the information will be available on Polaris Management A/S' website for 10 years, after which it will be deleted.

The information disclosed below corresponds to the notes previously included in the annual report. The annual report still contains information on remuneration, etc., at an aggregated level.

Remuneration policy related to Executive Board and Board of Directors

Polaris Management A/S' remuneration policy aims at attracting, retaining, developing and rewarding employees who contribute to the profitable growth of the Company. The policy ensures that remuneration is credible, effective and fair, that the ratio of fixed and variable salary is adequate, proportional and balanced and that the overall remuneration is aligned with sound and efficient risk management principles and does not encourage excessive risk-taking. The policy has not been changed during the year.

Members of the Board of Directors and Executive Board are compensated individually and on a fixed remuneration basis only.
